

# Link to issue

## Get started with Link to issue

This article will guide you through the process to bulk link issues with Exporter. With just a few clicks you will be able to link as many issues you want to a third one.

### Page content

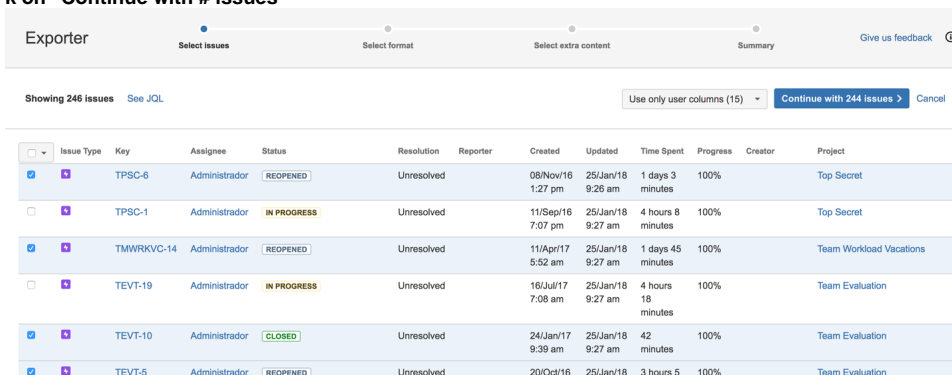

- [Step 1: Go to Exporter from the JIRA Issue Navigator and select issues that you want to export](#)
- [Step 2: The format selection screen](#)
- [Step 3: Link to a New Issue](#)
- [Step 3: Link to an existing issue](#)

## Step 1: Go to Exporter from the JIRA Issue Navigator and select issues that you want to export

1. Once you have the results of the filters in the Issue Navigator, click on **Exporter Button**

2. Once you are in the first Exporter Screen you can uncheck the issues that you don't want to export, by default all the issues are selected. **Click on "Continue with # issues"**

| Issue Type                          | Key        | Assignee      | Status      | Resolution | Reporter | Created           | Updated           | Time Spent         | Progress | Creator | Project                 |
|-------------------------------------|------------|---------------|-------------|------------|----------|-------------------|-------------------|--------------------|----------|---------|-------------------------|
| <input checked="" type="checkbox"/> | TPSC-6     | Administrador | REOPENED    | Unresolved |          | 08/Nov/16 1:27 pm | 25/Jan/18 9:26 am | 1 days 3 minutes   | 100%     |         | Top Secret              |
| <input type="checkbox"/>            | TPSC-1     | Administrador | IN PROGRESS | Unresolved |          | 11/Sep/16 7:07 pm | 25/Jan/18 9:27 am | 4 hours 8 minutes  | 100%     |         | Top Secret              |
| <input checked="" type="checkbox"/> | TMWRKVC-14 | Administrador | REOPENED    | Unresolved |          | 11/Apr/17 5:52 am | 25/Jan/18 9:27 am | 1 days 45 minutes  | 100%     |         | Team Workload Vacations |
| <input type="checkbox"/>            | TEVT-19    | Administrador | IN PROGRESS | Unresolved |          | 16/Jul/17 7:08 am | 25/Jan/18 9:27 am | 4 hours 18 minutes | 100%     |         | Team Evaluation         |
| <input checked="" type="checkbox"/> | TEVT-10    | Administrador | CLOSED      | Unresolved |          | 24/Jan/17 9:39 am | 25/Jan/18 9:27 am | 42 minutes         | 100%     |         | Team Evaluation         |
| <input checked="" type="checkbox"/> | TEVT-5     | Administrador | REOPENED    | Unresolved |          | 20/Oct/16         | 25/Jan/18         | 3 hours 5 minutes  | 100%     |         | Team Evaluation         |

## Step 2: The format selection screen

1. The second step is to select the format of the export. Between all of them, **select Link to issue**.
2. You can choose between creating a [50694137](#) (only Server) or to select an [50694137](#).
3. **Click on "Continue with # issues"**

< Back

Continue with 246 issues > Cancel

## How do you want to export your data?

Select the format you'd like to use

**EXCEL**

Downloading your file in Excel will permit you to visualize and manipulate the information

**PDF**

Exporting issues to PDF allows you to have a readily printable document.

**CSV**

CSV format allows you to re-import your data into another JIRA instance.

**Link to issue**

If you prefer you can link all your selected issues to another JIRA issue.

New issue

Existing issue

## Step 3: Link to a New Issue

 This option is just available for JIRA Server instances. We are working to have it in Cloud as well.

### 1. Select the link type

< Back

Continue with 4 issues > Cancel

## How do you want to link your issues?

Select the link type and the target issue

Every exported issue\*
