

# Release Notes

## 20 Mar 2019 Release Notes 1.7.0-AC (2.431)

- **NEW** GRPR compliance.

## 11 Dec 2018 Release Notes 1.7.0-AC (2.4.26)

- **NEW** Number and Date fields are now set as natives in Excel
- **FIXED** Removed Jira Software's development field as is just a metadata field, it won't disturb you anymore.

## 19 Apr 2018 Release Notes 1.7.0-AC (2.4.20)

- Fixed an error with the dates, now are shown and exported with the user timezone
- Changed progress bar color to blue

## 15 Jun 2017 Release Notes 1.7.0-AC (2.4.0)

- Compatibility with JQL functions like currentUser, issueHistory, watchedIssues, etc.
- Stability improvements and minor bug fixing

## 30 May 2017 Release Notes 1.6.5-AC (2.3.0)

- This version is a particular update, we have included the compatibility with **JIRA Service Desk** fields. Now you can export information about SLA's, CRT and Participants quickly.
- We have also improved the export process and fixed an error that was causing a significant number of issues not being exported correctly.

## 26 Apr 2017 Release Notes 1.6.4-AC (2.1.0)

- Now you can perform a bulk link to another issue.

## 18 Apr 2017 Release Notes 1.6.4-AC (2.0.0)

### New Exporter!

We have made Exporter from scratch to bring a fully new experience and features:

- Whole new UI to gain total control of your exports
- You can uncheck the issues that you don't want to export (like in bulk change)
- Export all the issues that you want. No more 1000 issues limitation
- Export to Excel and CSV
- Include extra content like Attachments, Comments and Transitions
- Bulk link to an issue
