

Security Statement

Overview

Exporter allows you to export issue data from issue navigator to Excel and CSV formats. Also allows to bulk link to another issue.

Data

- Exporter only stores generic parameters of your JIRA instance, like its key or URL.
- Exporter does not store any information registered on your JIRA instance.
- Exporter manages your JIRA information to generate the report and give it to you. This data will not be stored in our servers.

Access

- Exporter never store any JIRA data on our servers.
- Exporter do not store your JIRA credentials anywhere.

Privacy

Deiser understands the importance of privacy. Please read our [Privacy Policy](#) for more information.
