

Installing Version Tracker

To install Version Tracker:

1. Log in as a user with **JIRA Administrator permissions**.
2. Click on the **"Plug ins"** option in the **Admin** menu:

3. By default, JIRA shows a screen to search for new plugins where you can look for plugins in the Marketplace directly:
4. Write "Version Tracker" in the search field and press Enter to go to the Version Tracker screen.
5. Click on **"Buy"** or **"Free Trial"**

6. Next click on the **"Get license"** button to get the Atlassian license.
