

# Release Notes 2.0.x

## Release Notes 2.0

- Ability to decide which custom date field you want to use as the "due date".
- Drop down list displays only the selected filters to apply.
- New range selector slide, with the Workload avatars.
- Save unlimited views and use them anytime.
- Now it's possible to drill down the grid and display the tasks assigned to a user. Then, you can edit the tasks.

## Release Notes 2.0.1

- Established english as default language at the ranges administration page
  
- **Bug fix:** Fixed bug: when we change the maximum value at the ranges administration page, intermediate values don't change.
- **Bug fix:** Fixed bug: when users establishes a due date custom field and tries to show issues without jira due date, the service does not retrieve results.

## Release Notes 2.0.2

- **Bug fix:** Default values optimization in configuration table

## Release Notes 2.0.3

- **Bug fix:** velocity shows action methods when receiving null values in Oracle
-
