

# Release Notes 1.1.x

## Release Notes 1.1.0.0

- **Start date.** When a custom field is selected as Starting Date, it will be used to calculate the workload. This section appears only if the use of these custom fields was selected and checked.
- **Current date.** When a date is selected as a 'Current Date', it is used as a starting date to calculate the workload.

## Release Notes 1.1.0.1

- **Bug fix:** When an issue does not have a due date, a reference is no longer saved in JIRA log's
-
