

# Release Notes 4.9.x

## Release Notes 4.9.1

This version includes some security updates and solved a problem that was causing that the user picker field wasn't saving the values.

## Release Notes 4.9.0

In this release we wanted to do Profields a bit better and useful, this version includes:

- **Permissions:** now when you select the "Edit" permission on a field also implies the "View" permissions.
- **REST API:** added the function to get the project fields used in an specific project.
- **[Fixed]** The user picker field didn't work properly when changing the username
- **[Fixed]** User avatar wasn't shown fine on the History screen
- **[Fixed]** The column selector was closing unexpectly on the Project Navigator.
